# FOCUSED LEARNING ABOUT SAFETY AND HEALTH

## CERVICAL CANCER PREVENTION

### GET INFORMED.

Find out the facts about cervical cancer and the human papilloma virus (HPV) that causes it. Help educate other women in your life too.

### GET SCREENED.

Cervical cancer screening typically starts at age 30 and is repeated periodically.

### GET VACCINATED.

- The HPV vaccine is given in 2 doses that should begin when a girl is between 9 and 14 years old.
- Vaccination against HPV is safe and prevents cervical cancer
